

**New Poultry Waste Management Training Information Hotline!
1 866 OSU 4CEU**

Josh Payne, Ph.D.

A new Poultry Waste Management Training Class Information Hotline has been added as another resource for obtaining up-to-date information about upcoming training classes. To hear a recording that details dates, times and locations for both annual continuing education units (CEU) and initial 9 hour training opportunities, call toll-free: **1-866-OSU-4CEU (1-866-678-4238)**.

The system features an automated menu, but includes the option of reaching an attendant during regular business hours. The information is regularly updated and accessible 24 hours a day, seven days a week. It allows individuals without internet access to gain needed class information. For those with internet access, class schedules along with regulatory information, useful links, news, and Extension contacts can also be found at: www.poultrywaste.okstate.edu
